

****Please spread the word****

Good Morning,

The Commissioners opened up the Spongy Moth Cost-Share portal this morning, Monday, January 6th for landowners seeking financial assistance in spraying for the 2025 season.

Please visit our website at: www.pikepa.org/spongymoth for information on aerial applicators, spray products, as well as the cost-share application should you decide to contract for spraying with your neighbors. The County is offering a 25% reimbursement program for aerial applications using Bt that are 25 acres+ in size.

Landowners living in a community association are encouraged to check with their HOA first to see if the community is planning to spraying.

If you haven't yet talked to your neighbors, I would suggest doing that asap. I would also recommend contacting a few applicators to check pricing and get their treatment suggestions. Once you have contracted with an applicator, you can return to our website and complete the "[Spongy Moth Suppression Cost-Share Program Application](#)". Our partial reimbursement program is a first come, first served offer so we are encouraging interested landowners to act fast.

Sincerely,
Jessica
